

Responsible Raw Materials Initiative Declaration of Support

Responsible Raw Materials Initiative Declaration of Support Instructions

- 1) Print page 2 of this document.
- 2) Complete the five fields. The declaration should be signed by a company representative with decision-making authority in Sustainability, Procurement or another function related to responsible sourcing in your organization.
- 3) Scan the document and email it as an attachment to RRMI@iccoalition.org

Please contact Bob Mitchell at bmitchell@iccoalition.org with any questions.

Responsible Raw Materials Initiative Declaration of Support

Declaration of Support

On behalf of my company, a member of the Electronic Industry Citizenship Coalition (EICC) and/or the Conflict-Free Sourcing Initiative (CFSI), I state my company's public support for the Responsible Raw Materials Initiative (RRMI) and its principles:

- We have an opportunity and responsibility to include prioritized raw materials in our responsible sourcing strategies.
- We acknowledge the challenges of achieving a state where industry can collectively understand and agree to its part in advancing responsible sourcing of raw materials.
- We support the RRMI's goal of understanding and contributing to mitigating the salient social and environmental impacts of extraction and processing of raw materials in supply chains.

I acknowledge we are expected to participate in RRMI activities as appropriate and allow the EICC and CFSI to reference our company's name among those declaring their support for the initiative.
